

Light

V.1

We're miles apart  
But safe from dreams  
You're running from.  
Beyond the dawn  
We'll always need  
One of their own  
To lead.

Chorus

(MGS) Shine your light over me,  
All my fears are gone.  
And it don't bother me  
If it's not meant to be

V.2

Too far to run.  
Fall on your knees  
To find a love  
You're light to me  
My only sun  
You'll always shine  
For me

Chorus x 2 (?)

Oooh oo oo ah  
I had to lose to understand  
Strung out from all this  
Pour out a thousand tears  
I never knew a kinder man  
Even - if we - are miles - apart

[Somehow back to chorus]

Then finish with more Even - if we - are miles - apart?
